Other Events

The 2nd International Conference on Prehypertension and Cardio Metabolic Syndrome (PreHT 2013)
31 January–3 February 2013
Barcelona, Spain
Web site: www.prehypertension.org

Beginning with manuscripts submitted after 1 January 2013, *Diabetes Care* requires authors to report HbA_{1c} levels in both traditional, DCCT-derived units (as %) and SI, IFCC-recommended units (as mmol/mol). Authors should use the NGSP's HbA_{1c} converter at <http://www.ngsp.org/convert1.asp> to calculate HbA_{1c} values as both % and mmol/mol. (Please note the additional link for converting standard deviations.) Values should first be reported as %, followed by the mmol/mol equivalent in parentheses.
