Type 1 Diabetes Genetics Consortium (T1DGC) Autoantibody Workshop

S1 Role of Type 1 Diabetes–Associated SNPs on Autoantibody Positivity in the Type 1 Diabetes Genetics Consortium: Overview
S.S. Rich and P. Concannon

S4 Design and Measurement of Nonislet-Specific Autoantibodies for the Type 1 Diabetes Genetics Consortium Autoantibody Workshop
B. Akolkar, J. Hilner, and C.R. Nierras

S8 Shared Genetic Basis for Type 1 Diabetes, Islet Autoantibodies, and Autoantibodies Associated With Other Immune-Mediated Diseases in Families With Type 1 Diabetes
C.A. Brorsson, F. Pociot, and the Type 1 Diabetes Genetics Consortium

S14 Changes in Zinc Transporter 8 Autoantibodies Following Type 1 Diabetes Onset: The Type 1 Diabetes Genetics Consortium Autoantibody Workshop
J.M. Wenzlau, L.M. Frisch, J.C. Hutton, P.R. Fain, and H.W. Davidson

S21 Genetics of Autoimmune Thyroiditis in Type 1 Diabetes Reveals a Novel Association With DPB1*0201: Data From the Type 1 Diabetes Genetics Consortium
H. Kahles, P.R. Fain, P. Baker, G. Eisenbarth, and K. Badenhoop

S29 ATPase4A Autoreactivity and Its Association With Autoimmune Phenotypes in the Type 1 Diabetes Genetics Consortium Study
J.M. Wenzlau, P.R. Fain, T.J. Gardner, L.M. Frisch, B. Annibale, and J.C. Hutton

S37 Contrasting the Genetic Background of Type 1 Diabetes and Celiac Disease Autoimmunity

S45 Summary of the Type 1 Diabetes Genetics Consortium Autoantibody Workshop
S.S. Rich and P. Concannon
