Commentary

1851 Identifying Causes for Excess Mortality in Patients With Diabetes: Closer but Not There Yet

O.H.Y. Yu and S. Suiisa

Emerging Science, Concepts, and Approach to Precision Medicine

1854 The Impact of Precision Medicine in Diabetes: A Multidimensional Perspective

S.S. Rich and W.T. Cefalu

1858 The Application of Genomics in Diabetes: Barriers to Discovery and Implementation

J.S. Floyd and B.M. Patsy

1870 Precision Medicine, Genomics, and Public Health

D.K. Arnett and S.A. Claas

1874 Precision Medicine, Diabetes, and the U.S. Food and Drug Administration

R.J. Meyer

1879 Systematic Population Screening, Using Biomarkers and Genetic Testing, Identifies 2.5% of the U.K. Pediatric Diabetes Population With Monogenic Diabetes

1889 Toward Precision Medicine: TBC1D4 Disruption Is Common Among the Inuit and Leads to Underdiagnosis of Type 2 Diabetes

1896 Effect of Serotonin Transporter 5-HTTLPR Polymorphism on Gastrointestinal Intolerance to Metformin: A GoDARTS Study

1902 CYP2C8 and SLCO1B1 Variants and Therapeutic Response to Thiazolidinediones in Patients With Type 2 Diabetes

1909 Macronutrient Intake–Associated FGF21 Genotype Modifies Effects of Weight-Loss Diets on 2-Year Changes of Central Adiposity and Body Composition: The POUNDS Lost Trial

1915 Genetic Predictors of Cardiovascular Mortality During Intensive Glycemic Control in Type 2 Diabetes: Findings From the ACCORD Clinical Trial

Clinical Care/Education/Nutrition/Psychosocial Research

1925 Short-term Effects of Laparoscopic Adjustable Gastric Banding Versus Roux-en-Y Gastric Bypass

A. Gastaldelli, A. Iaconelli, M. Gaggin, M.C. Magnone, A. Veneziani, F. Rubino, and G. Mingrone

1932 Inverse Relationship Between Organ-Specific Autoantibodies and Systemic Immune Mediators in Type 1 Diabetes and Type 2 Diabetes: Action LADA 11

1940 Increased Risk of Incident Chronic Kidney Disease, Cardiovascular Disease, and Mortality in Patients With Diabetes With Comorbid Depression

1948 Randomized Controlled Study of Metformin and Sitagliptin on Long-term Normoglycemia Remission in African American Patients With Hyperglycemic Crises

1956 Correlates of Medication Adherence in the TODAY Cohort of Youth With Type 2 Diabetes

1963 Kindness Matters: A Randomized Controlled Trial of a Mindful Self-Compassion Intervention Improves Depression, Distress, and HbA1c Among Patients With Diabetes

A.M. Friis, M.H. Johnson, R.G. Cutfield, and N.S. Consedine

1972 Efficacy and Safety of Liixilan, a Titratable Fixed-Ratio Combination of Insulin Glargine Plus Lixisenatide in Type 2 Diabetes Inadequately Controlled on Basal Insulin and Metformin: The Liixilan-L Randomized Trial

Epidemiology/Health Services Research

1981 Medical Care Costs Associated With Long-term Weight Maintenance Versus Weight Gain Among Patients With Type 2 Diabetes

G.A. Nichols, K. Bell, T.M. Kimes, and M. O’Keeffe-Rosetti

1987 Risk of Cause-Specific Death in Individuals With Diabetes: A Competing Risks Analysis

1996 BMI at Age 17 Years and Diabetes Mortality in Midlife: A Nationwide Cohort of 2.3 Million Adolescents

Comment on Qian et al. Metabolic Effects of Monounsaturated Fatty Acid–Enriched Diets Compared With Carbohydrate or Polyunsaturated Fatty Acid–Enriched Diets in Patients With Type 2 Diabetes: A Systematic Review and Meta-analysis of Randomized Controlled Trials. Diabetes Care 2016;39:1448–1457
L. Schwingshackl and G. Hoffmann

Response to Comment on Qian et al. Metabolic Effects of Monounsaturated Fatty Acid–Enriched Diets Compared With Carbohydrate or Polyunsaturated Fatty Acid–Enriched Diets in Patients With Type 2 Diabetes: A Systematic Review and Meta-analysis of Randomized Controlled Trials. Diabetes Care 2016;39:1448–1457
F. Qian and F.B. Hu

Comment on Fischer et al. Text Message Support for Weight Loss in Patients With Prediabetes: A Randomized Clinical Trial. Diabetes Care 2016;39:1364–1370
M. Afarideh, A. Ghajar, S. Noshad, and A. Esteghamati

H.H. Fischer, R.I. Pereira, S.L. Moore, M.J. Durfee, J.M. Rozwadowski, and E.P. Havranek

The American Diabetes Association (ADA) is the nation’s leading voluntary health organization supporting diabetes research, information, and advocacy. Its mission is to prevent and cure diabetes and to improve the lives of all people affected by diabetes. ADA is the leading publisher of comprehensive diabetes information. Its huge library of books and periodicals covers every aspect of diabetes and diabetes care.

To join ADA: Call 1-800-806-7801 or visit professional.diabetes.org/membership
To subscribe to ADA journals: Call 1-800-DIABETES or go to diabetesjournals.org
To order ADA books: Call 1-800-232-6733 or visit shopdiabetes.org
To access ADA’s library of professional resources: Go to professional.diabetes.org
For more information about diabetes or ADA programs and services: Call 1-800-DIABETES. E-mail: AskADA@diabetes.org or visit diabetes.org
To locate an ADA/NCQA Recognized Provider of quality diabetes care in your area: Visit recognition.ncqa.org
To join the fight to increase funding for diabetes research, end discrimination, and improve insurance coverage: Call 1-800-DIABETES or visit diabetes.org/advocacy
To find out how you can get involved with the programs in your community: Call 1-800-DIABETES or visit diabetes.org/in-my-community
To find out about important research regarding diabetes: Go to diabetes.org/research-and-practice
To make a donation or memorial contribution: Call 1-800-DIABETES or visit diabetes.org/donate
